

Promoting Thai heritage.

Arts and craft in a golden land.

Esso strives to make a positive contribution to our country.

That is why we support the Bangsai Arts and Crafts Centre under the royal patronage of Her Majesty the Queen's Supplementary Occupations and Related Techniques (SUPPORT) organization, which works to preserve our precious Thai heritage and help increase villagers' income. Our support for the well-established Silpakorn University in the National Exhibition of Arts, also helps support Thai artists' work and public interest in art domestically and internationally.

We are proud to help promote Thai heritage of arts and crafts and contribute to the worldwide recognition of our national treasures.
